The Nomadic Developer Aaron Erickson 2009–05–05 Learn the Real Secrets of Succeeding as a Software or IT Consultant in Any Economic Climate! Despite economic cycles, the idea of using technology to make a company more efficient and competitive—or perhaps even reach a new market—is appealing to all but the most desperate and cash-starved companies. More and more often, those companies look to technology consultants to fulfill their needs. There are real advantages to being a consultant. You make contacts with a lot of different people; you get exposure to many industries; and most important, unlike a software developer in the IT department for a brick-and-mortar company, as a technology consultant, you are the profit center...so long as you are billing. Consulting can be hugely rewarding—but it’s easy to fall if you are unprepared. To succeed, you need a mentor who knows the lay of the land. Aaron Erickson is your mentor, and this is your guidebook. Erickson has done it all—from Practice Leadership to the lowest level project work. In The Nomadic Developer, he brings together his hardwon insights on becoming successful and achieving success through tough times and relentless change. You’ll find 100% practical advice and real experiences—his own and annotations from those in the trenches. In addition, renowned consultants—such as David Chappell, Bruce Eckel, Deborah Kurata, and Ted Neward—share some of their hard-earned lessons. With this useful guidebook, you can Objectively assess whether the consultant’s life makes sense for you Break into the business and build a career path that works Avoid the Seven Deadly Firms by identifying unscrupulous technology consultancies and avoiding their traps and pitfalls Understand the business models and mechanics that virtually all consulting firms use Master secret consulting success tips that are typically left unstated or overlooked Gain a competitive advantage by adding more value than your competitors Continue your professional development so you stay billable even during bad times Profit from both fixed-bid and time-and-materials projects Build a personal brand that improves your resiliency no matter what happens

Unhooking the Moon Gregory Hughes 2010–04–29 Meet the Rat: A dancing, football-playing gangster-baiting ten-year-old. When she foresaw her father’s death, she picked up her football and decided to head for New York. Meet her older brother Bob: Protector of the Rat, but more often her follower, he is determined to find their uncle in America and discover a new life for them both. On their adventures across the flatlands of Winnipeg and through the exciting streets of New York, Bob and the Rat make friends with a hilarious con man and a famous rap star, and escape numerous dangers. But is their Uncle a rich business man, or is the word on the street, that he something more sinister, true? And will they ever find him? Hughes has created a funny, warm, unique world that lives and breathes. Like I Capture the Castle, Breakfast at Tiffany’s, The Curious Incident, Hughes’ story and characters will resonate for many and for years to come.

Java in the 14th Century Theodore G.Th. Pigeaud 2013–03–09 Essentially the following commentary on the contents of the Nāgara-Kertāgama has been made up from notes by former editors of the text together with remarks, criticisms and digressions by the present author. As Kern, Krom and their contemporaries were especially interested in dynastie history and archeology their notes on those subjects are legion, and as a result of their studies on many points a communis opinio has been reached. The argumentations which led up to this end are not reproduced in the present edition. The interested reader is referred to Krom’s great books: Oud-Javaansche Kunst and Hindoe-Javaansche Geschiedenis. It is to be expected that before long the results of Krom’s life-work will be made accessible for English readers by De Casparis. On the other hand cultural history, religion, economics and sociology have been rather neglected by the first editors of the Nāgara-Kertā gama. The present author has done his best to remedy that omission. The reader will find that the greater part of the following commen taries is concerned with those subjects. The contemporaneous minor texts and the charters that are published, translated and annotated in the present book in the same manner as the Nāgara-Kertāgama have been chosen almost exclusively for the valuable information on social, economic and religious conditions in the 14th century Majapahit realm that is afforded by them.

Angel Creek Linda Howard 2011–08–09 Desire came like a wildfire to the Colorado hills to claim a woman’s property...and her heart. From the New York Times bestselling author of A Lady of the West. For five years after her father died, beautiful Dee Swann held on to Angel Creek valley and her independence. The homestead was hers, and she vowed no one else would ever own it...or her. Then Lucas Cochran came back to Colorado. In the drought-cursed high country, he needed Angel Creek and its cool water to turn his Double C ranch into the cattle dynasty he craved. His ruthless ambition guaranteed he would fight to take it away from the black-haired, green-eyed spitfire who claimed it. But the passion that blazed when Dee Swann and Lucas Cochran met shocked them both. Unbidden, unexpected, their kisses swept them toward a dangerous destiny where dreams might be scattered...men could be killed...or love would be born as wild and unfettered as this glorious frontier.

Institutions of the Asia-Pacific Mark Beeson 2008–08–18 The Asia-Pacific is arguably the most important, but also the most complex and contested, region on the planet. Containing three of the world’s largest economies and some of its most important strategic relationships, the region’s capacity of regional elites to promote continuing economic development whilst simultaneously maintaining peace and stability will be one of the defining challenges of the twenty-first century international order. Intuitively, we might expect regional institutions to play a major role in achieving this. Yet one of the most widely noted characteristics of the Asia-Pacific region has been its relatively modest levels of institutional development thus far. However, things are changing: as individual economies in the Asia-Pacific become more deeply integrated, there is a growing interest in developing and adding to the institutions that already exist. Institutions of the Asia-Pacific examines how this region is developing, and what role established organisations like APEC and new bodies like ASEAN Plus Three are playing in this process. An expert in the field, Mark Beeson introduces the contested nature of the very region itself – should it be the ‘Asia-Pacific’ or ‘East Asia’ to which we pay most attention and expect to see most institutional development. By placing these developments in historical context, he reveals why the very definition of the region remains unsettled and why the political, economic and strategic relations of this remarkably diverse region remain fraught and difficult to manage.

To Wed a Wild Lord Sabrina Jeffries 2011–11–22 Lord Gabriel Sharpe is guilt-ridden by his friend’s death to the point that he recklessly accepts a challenge to compete in the same race that ended his friend’s life, but develops unexpected feelings for his friend’s sister.

Absolute Fear Lisa Jackson 2008–03–01 From #1 New York Times bestselling author Lisa Jackson comes a pulse-pounding novel featuring two of her most acclaimed characters, New Orleans detectives Rick Bentz and Reuben Montoya—as a series of ritual slayings draw a psychology student back to a decaying asylum . . . Eve Renner loved Cole Dennis—until the moment he tried to kill her. That was three months ago, when Eve was lured to a cabin where she found an old friend brutally murdered. Eve is almost positive it was Cole’s face she saw right before she was shot. But her memories were too shaky to stand up to trial. Cole is a free man again. And a new string of killings has begun. The murders all link back to Our Lady of Virtues, the asylum where Eve’s father worked as a doctor. She wandered those hallways as a child, exploring hidden rooms and chambers, too young to understand what was happening there. Now, with every victim found, each body tattooed with a number, the pieces of a deadly puzzle fall into place—and all point back to Eve and the ruins of the once-grand hospital. Detective Reuben Montoya and his partner, Rick Bentz, once convinced of Cole’s guilt, now suspect a deeper evil at work. Eve knows she has little choice but to return to Our Lady of Virtues—and to trust Cole in her search for answers. But as Eve’s memories gradually return, they only lead her closer to danger, toward the final, meticulously planned act of a killer obsessed with vengeance—and with her.

Goodbye, Things: The New Japanese Minimalism Fumio Sasaki 2017–04–11 The best-selling phenomenon from Japan that shows us a minimalist life is a happy life. Fumio Sasaki is not an enlightened minimalist expert or organizing guru like Marie Kondo—he’s just a regular guy who was stressed out and constantly comparing himself to others, until one day he decided to change his life by saying goodbye to everything he didn’t absolutely need. The effects were remarkable: Sasaki gained true freedom, new focus, and a real sense of gratitude for everything around him. In Goodbye, Things Sasaki modestly shares his personal minimalist experience, offering specific tips on the minimizing process and revealing how the new minimalist movement can not only transform your space but truly enrich your life. The benefits of a minimalist life can be realized by anyone, and Sasaki’s humble vision of true happiness will open your eyes to minimalism’s potential.

Encyclopedia of Wicca & Witchcraft Raven Grimassi 2000 Grimassi has written extensively about Wicca, and Llewellyn specializes in books sympathetic to occult ways, so the combination is pretty predictable. He describes not only the usual magic practices, but also the religious and spiritual aspects of what believers say is inherited ancient European wisdom and scoffers say is made-up, new-age nonsense. The Last Secret of the Temple Paul Sussman 2008–09–23 An ancient secret threatens to unleash a modern war in this international-bestselling thriller on par with the best literature out there” (James Rollins) Jerusalem, 70 AD: As the invading Romans destroy the Holy Temple, a young Jewish boy is hidden away—chosen as the guardian of a great secret. And for seventy generations, the secret is kept safe . . . But now, in order to ignite a new conflict between Israel and the Arab world, a Jewish radical is prepared to reveal what has been hidden for centuries. The only ones who can stop the coming bloodshed are a beautiful young Palestinian journalist and two detectives—one Israeli, one Egyptian—in an unlikely alliance. As their separate searches for the truth intertwine, they discover there are some in this war-torn region who believe true peace can only be found in death . . . Full of the detail and in-depth knowledge only a bestselling author and true-life archaeologist could deliver, this is a “tightly-plotted, richly-observed, thought-provoking thriller” (Raymond Khoury). “Sussman, an archeologist, puts in plenty of satisfying twists and turns, and grounds the story in the violence and intrigue of the current Israeli-Palestinian conflict.”—Publishers Weekly **Back Home** Michelle Magorian 1987–08–27 WW2 has just ended and twelve-year-old Rusty comes back home to Britain after being evacuated to the US. The greyness and bleakness of life in England is a shock, but even worse is adapting to the strict discipline of her family, including a brother she’s never met, after the warmth and openness of her adopted American family. Rusty is sent to an horrific boarding school, before finally running away as her search for happiness becomes more and more desperate.

What Good are the Arts? John Carey 2012–11–15 From one of the country’s most eminent reviewers and academics, a delightfully sceptical and devastatingly intelligent assessment of the true value of art.

Because You Love to Hate Me Amerie, 2017–07–13 Leave it to the heroes to save the world—villains just want to rule the world. In this unique YA anthology, thirteen acclaimed, bestselling authors team up with thirteen influential BookTubers to reimagine fairy tales from the oft-misunderstood villains’ points of view. These fractured, unconventional spins on classics like "Medusa," Sherlock Holmes, and "Jack and the Beanstalk" provide a behind-the-curtain look at villains’ acts of vengeance, defiance, and rage—and the pain, heartbreak, and sorrow that spurred them on. No fairy tale will ever seem quite the same again! Featuring writing from . . . Authors: Renée Ahdieh, Amerie!, Soman Chainani, Susan Dennard, Sarah Enni, Marissa Meyer, Cindy Pon, Victoria Schwab, Samantha Shannon, Adam Silvera, Andrew Smith, April Genevieve Tucholke, and Nicola Yoon BookTubers: Benjamin Alderson (BenjaminOfTomes), Sasha Alsberg (abookotopia), Whitney Atkinson (WhittyNovels), Tina Burke (ChristinaReadsYA blog and TheLushables), Catriona Feeney (LittleBookOwl), Jesse George (JesseTheReader), Zoë Herdt (readybzoe), Samantha Lane (Thoughts on Tomes), Sophia Lee (thebookbasement), Raelen Lemay (padfootandprongs07), Regan Perusse (PeruseProject), Christine Riccio (polandbananasBOOKS), and Steph Sinclair & Kat Kennedy (Cuddlebuggery blog and channel).

Foreign Exchange & Risk Management C. Jeevanandam 2020–10–10 The book continues the tradition of providing a blend of sound theoretical knowledge of foreign exchange economics with practical and procedural aspects of banks and other institutions connected with foreign exchange. Each topic is comprehensively dealt with, looking at it from every angle, viz., the conceptual framework, exchange control regulations, rules of FEDAI and the International Chamber of Commerce, and procedures of banks. It presents in a cogent and understandable manner materials that lie scattered. The book is designed to meet the requirements of post-graduate courses in commerce and economics and MBA for papers such as ‘Foreign Exchange’, ‘Foreign Exchange Risk Management’ and ‘International Finance Management’. While the whole book discusses the region exchange by all concerned, the last section concentrates on its management in an international on multinational firm. Practical questions that appeared in professional courses of Chartered Accountants, Cost and Management Accountants and Chartered Secretaries and MBA courses have been included in appropriate chapters with full solutions. To encourage student to attempt on his/her own the solutions are provided after the set of questions and not after each question.

Learning in the Museum George E. Hein 2002–09–11 Learning in the Museum examines major issues and shows how research in visitor studies and the philosophy of education can be applied to facilitate a meaningful educational experience in museums. Hein combines a brief history of education in public museums, with a rigorous examination of how the educational theories of Dewey, Piaget, Vygotsky and subsequent theorists relate to learning in the museum. Surveying a wide range of research methods employed in visitor studies is illustrated with examples taken from museums around the world. Hein explores how visitors can best learn from exhibitions which are physically, socially, and intellectually accessible to every single visitor. He shows how museums can adapt to create this kind of environment, to provide what he calls the ‘constructivist museum’. Providing essential theoretical analysis for students, this volume also serves as a practical guide for all museum professionals on how to adapt their museums to maximize the educational experience of

every visitor.

Crisis in the Red Zone Richard Preston 2019–07–23 NEW YORK TIMES BESTSELLER • An urgent wake-up call about the future of emerging viruses and a gripping account of the doctors and scientists fighting to protect us, told through the story of the deadly 2013-2014 Ebola epidemic “Crisis in the Red Zone reads like a thriller. That the story it tells is all true makes it all more terrifying.”—Elizabeth Kolbert, Pulitzer Prize-winning author of The Sixth Extinction From the #1 bestselling author of The Hot Zone, now a National Geographic original miniseries . . . This time, Ebola started with a two-year-old child who likely had contact with a wild creature and whose entire family quickly fell ill and died. The ensuing global drama activated health professionals in North America, Europe, and Africa in a desperate race against time to contain the viral wildfire. By the end—as the virus mutated into its deadliest form, and spread farther and faster than ever before—30,000 people would be infected, and the dead would be spread across eight countries on three continents. In this taut and suspenseful medical drama, Richard Preston deeply chronicles the pandemic, in which we saw for the first time the specter of Ebola jumping continents, crossing the Atlantic, and infecting people in America. Rich in characters and conflict—physical, emotional, and ethical—Crisis in the Red Zone is an immersion in one of the great public health calamities of our time. Preston writes of doctors and nurses in the field putting their own lives on the line, of government bureaucrats and NGO administrators moving, often fitfully, to try to contain the outbreak, and of pharmaceutical companies racing to develop drugs to combat the virus. He also explores the charged ethical dilemma over who should and did receive the rare doses of an experimental treatment when they became available at the peak of the disaster. Crisis in the Red Zone makes clear that the outbreak of 2013-2014 is a harbinger of further, more severe outbreaks, and of emerging viruses heretofore unimagined—in any country, on any continent. In our ever more interconnected world, with roads and towns cut deep into the jungles of equatorial Africa, viruses both familiar and undiscovered are being unleashed into more densely populated areas than ever before. The more we discover about the virosphere, the more we realize its deadly potential. Crisis in the Red Zone is an exquisitely timely book, a stark warning of viral outbreaks to come.

Marine Pollution Great Britain. Parliament. House of Lords. Select Committee on the European Communities 1981 **Deśawarṇana** Prapañca (Mpu) 1995 It is just over a century since the first manuscript of Deśawarṇana (also known as the Nagarakrttagama) was rescued from the sack of the palace at Cakranagara in Lombok. Once its importance for Javanese history was recognized, its place was assured: our picture of the greatness of the Javanese kingdom of Majapahit in the second half of the 14th century is based largely on the evidence of this one text, and it is true to say that this picture has formed an inspiration for modern Indonesians as well. The text is not a literary masterpiece, and it is not typical of its genre; in fact it is unique. One of the reasons for this is the fact that here and there its author, Mpu Prapanca, tells us something about himself, in particular when he accompanies his king as Superintendent of Buddhist Affairs on a long journey through the countryside of East Java in 1359.

Geographic Information Systems and Science Paul Longley 2001 This landmark text captures and redefines the richness and diversity of GIS, in an accessible form. It presents a clearly-defined path to a world of learning about GIS, using the Internet and closely-couples reference sources. It is richly produced and illustrated unlike any other in the field, with over 300 full colour illustrations. Unique in several ways, it presents comprehensive treatments of: Geographic Information Science – the scientific context to GIS, technical content and geographic implications The real value of GIS – illustrated using real world applications. Treatments emphasize operational, tactical and strategic issues The impact of Internet GIS on interdisciplinary science and society The pivotal role of GIS as a business driver in the information age – including the role of GIS as a business asset and the operational dynamics of its use in practice Learning resources include: Links to ESRI’s Virtual Campus which includes modules specially written to accompany the book (http://campus.esri.com) Instructor’s Manual to assist in the planning and use of this text in a variety of academic environments (http://www.wiley.co.uk/gis) Free on-line access to relevant chapters of the first edition of the two-volume ‘Big Book 1’ (http://www.wiley.co.uk/gis) Questions for further study at the end of each chapter (http://www.wiley.co.uk/gis) Powerpoint slides to assist teaching

Introducing Rousseau Dave Robinson 2015–09–03 Illustrated guide to the crucial French philosopher who denied bring a philosopher at all. ‘I am like no one else in the whole world ...’ Thus begins Jean-Jacques Rousseau's defiant Confessions – an autobiography of astounding psychological insight. Musician, poet, novelist and botanist, but above all, a philosopher who firmly denied being one, Rousseau was the first to ask: “What is the value of civilization?” His answer – that civilization corrupts natural goodness and increases social inequalities – shocked his Enlightenment contemporaries and still challenges us today. Did Rousseau inspire the French Revolution? Can Romanticism, psychoanalysis and Existentialism all be traced back to him? Introducing Rousseau presents a maverick thinker whose ideas revolutionized our understanding of childhood, education, government, language and much else. Dave Robinson’s clear and concise account of Rousseau’s ideas, engagingly dramatized by Oscar Zarate’s illustrations, guides the reader through Rousseau’s turbulent life of lost innocence, persecution and paranoia.

Rising to the Challenge Avery Goldstein 2008 Chinas increasing economic and military capabilities have attracted much attention in recent years. How should the world, especially the United States, respond to this emerging great power? A sensible response requires not only figuring out the speed and extent of Chinas rise, but also answering a question that has received much less attention: What is Chinas grand strategy?

God’s Spy J.G. Jurado 2010–06–10 A serial killer is on the loose in the Vatican... In the days following the death of Pope John Paul II, 115 cardinals are called to the Vatican in order to take part in the conclave and elect the new Pope. With Rome under siege to foreign press and thousands of mourners, the last thing it needs is a serial killer on the loose... Paola Dicanti is a profiler who works with the Italian police. She has been put in charge of profiling serial killers in a department of one - i.e. herself - but so far all her experience of serial killers is theoretical. This is until she is called to the church of Santa Maria in the Vatican state. A cardinal has been found murdered, his eyes destroyed, his hands cut off. It seems that this is not the first victim - another cardinal was found in similar circumstances but the authorities didn't want a scandal. Recovering from a bitter affair with her boss, Paola begins to build her profile using information from the scene of the crime, from the autopsy, and from forensic evidence. She is helped in this by Anthony Fowler, a priest from the States. But it turns out that Fowler is no ordinary priest - he clearly has links to the CIA, and knows a lot about the serial killer than Dicanti could ever have guessed... **Timelines of History** DK 2011–09–19 The entire course of history is revisited in this unique and unforgettable visual guide. The most memorable moments and significant events of each year are charted in a definitive timeline that runs throughout the book. From the ancient origins of our earliest African ancestors right up to our modern world today, Timelines of History includes a diverse range of people, cultures, and countries. Ideas, inventions, and innovations come together to provide a truly global view of history. Dramatic photography, eye-catching maps, and supporting graphics bring history to life as never before. The instantly accessible, multi-layered timeline enables you to move effortlessly through the ages. This essential reference strikes a balance between being completely comprehensive, but also ideal for browsing, thanks to the organized structure, chronological order, and bitesize information. This celebratory compendium makes an outstanding addition to any family library, enabling you to dip into the past any time you like.

Introducing Philosophy Dave Robinson 2014–06–05 Philosophers have always enjoyed asking awkward and provocative questions, such as: What is the nature of reality? What are human beings really like? What is special about the human mind and consciousness? Are we free to choose who we are and what we do? Can we prove that God exists? Can we be certain about anything at all? What is truth? Does language provide us with a true picture of the world? How should we behave towards each other? Do computers think? Introducing Philosophy is a comprehensive graphic guide to the thinking of all the significant philosophers of the Western world from Heraclitus to Derrida. It examines and explains their key arguments and ideas without being obscure or solemn. Lively and accessible, it is the perfect introduction to philosophers and philosophical ideas for anyone coming to the subject for the first time.

The Power of Prophecy P. B. R. Carey 2007 National hero, Javanese mystic, pious Muslim, and leader of the "holy war" against the Dutch between 1825 and 1830, the Yogyakarta prince Dipanagara is pre-eminent in the pantheon of modern Indonesian historical figures. This first biography based on Dutch and Javanese sources is concerned with the rise of Western colonial rule in Indonesia, the fate of indigenous cultures in an age of imperials, and the role of Javanese Islam in modern Indonesian history.

PCB Design for Real-World EMI Control Bruce R. Archambeault 2013–06–29 Proper design of printed circuit boards can make the difference between a product passing emissions requirements during the first cycle or not. Traditional EMC design practices have been simply rule-based, that is, a list of rules-of-thumb are presented to the board designers to implement. When a particular rule-of-thumb is difficult to implement, it is often ignored. After the product is built, it will often fail emission requirements and various time consuming and costly add-ons are then required. Proper EMC design does not require advanced degrees from universities, nor does it require strenuous mathematics. It does require a basic understanding of the underlying principles of the potential causes of EMC emissions. With this basic understanding, circuit board designers can make trade-off decisions during the design phase to ensure optimum EMC design. Consideration of these potential sources will allow the design to pass the emissions requirements the first time in the test laboratory. A number of other books have been published on EMC. Most are general books on EMC and do not focus on printed circuit board is intended to help EMC engineers and design design. This book engineers understand the potential sources of emissions and how to reduce, control, or eliminate these sources. This book is intended to be a 'hands-on' book, that is, designers should be able to apply the concepts in this book directly to their designs in the real-world.

The Question of Red Laksmi Pamuntjak 2016–07–12 In this sweeping saga of love, loss, revolution, and the resilience of the human spirit, Amba must find the courage to forge her own path. Amba was named after a tragic figure in Indonesian mythology, and she spends her lifetime trying to invent a story she can call her own. When she meets two suitors who fit perfectly into her namesake’s myth, Amba cannot help but feel that fate is teasing her. Salwa, respectful to a fault, pledges to honor and protect Amba, no matter what. Bhisma, a sophisticated, European-trained doctor, offers her sensual pleasures and a world of ideas. But military coups and religious disputes make 1960s Indonesia a place of uncertainty, and the chaos strengthens Amba’s pursuit of freedom. The more Amba does to claim her own story, the better she understands her inextricable bonds to history, myth, and love.”
