

# Jerusalem 1913 The Origins Of Arab Israeli Conflict Amy Kser Marcus

Right here, we have countless books **Jerusalem 1913 The Origins Of Arab Israeli Conflict Amy Kser Marcus** and collections to check out. We additionally have enough money variant types and moreover type of the books to browse. The welcome book, fiction, history, novel, scientific research, as without difficulty as various further sorts of books are readily easy to use here.

As this Jerusalem 1913 The Origins Of Arab Israeli Conflict Amy kser Marcus, it ends in the works bodily one of the favored book Jerusalem 1913 The Origins Of Arab Israeli Conflict Amy kser Marcus collections that we have. This is why you remain in the best website to see the amazing ebook to have.

**Teaching the Arab-Israeli Conflict** Rachel S. Harris 2019-04-22 Pedagogical resource to help faculty prepare courses on the Arab-Israeli conflict in any discipline.

*Understanding Palestine Today* Marcia Amidon Lusted 2020-05-11 Understanding Palestine Today is an accurate and contemporary presentation that explores the Middle Eastern nation of Palestine with a focus on the country as it is today: current issues, culture, and lifestyle. The book is written in an easy-to-read enjoyable narrative form for elementary readers grades 3-6. The Palestine title includes a native recipe and craft for students to create. Elementary students are encouraged to consider evidence from informational texts to support analysis, reflection, and research. Series titles have been developed to address many of the Common Core specific goals, higher level thinking skills, and progressive learning strategies for middle grade level students.

**Christian Zionism and the Restoration of Israel** Colin Chapman 2021-03-31 How should Christians today understand the many promises and prophecies in the Old Testament about the future of Israel and its land? Are Christian Zionists justified in believing that these have been fulfilled in the return of Jews to their land since the 1880s and the creation of the State of Israel in 1948? This book discusses all the key texts about the restoration of Israel that are quoted in these debates, questioning the Christian Zionist interpretation and offering an alternative. This is followed by a detailed study of two important Old Testament texts dealing with the future of Israel, Ezekiel 33–47 and Zechariah 9–13, understanding them in their original context and exploring how they are interpreted in the New Testament. This is no theoretical, ivory-tower debate. We are dealing here with the most bitter and protracted conflict of the last 150 years; and the way we interpret the Bible has profound political consequences.

**From Time Immemorial** Joan Peters 1985 This book is a study of the basic reasons for the Arab-Jewish feud and supports the author's thesis that the displacement of hundreds of thousands of Arabs who had lived in what became Israel in 1948 is not the reason for the conflict which has now been going on for years.

**Arab-Jewish Literature** Reuven Snir 2019-01-14 Arab-Jewish Literature: The Birth and Demise of the Arabic Short Story offers an account of the development of the art of the Arabic short story among the Arabized Jews during the twentieth century. An anthology of sixteen translated stories are included as an appendix to the book.

**Ordinary Jerusalem, 1840-1940** Angelos Dalachanis 2018-08-30 In Ordinary Jerusalem, 1840-1940, Angelos Dalachanis, Vincent Lemire and thirty-five scholars, mostly young academics, utilize new archives to revisit the global, extraordinary city of Jerusalem in the late Ottoman and Mandate periods.

**Jerusalem 1913** Amy Dockser Marcus 2008-03-25 A Pulitzer Prize-winning reporter examines the true history of the discord between Israel and Palestine with surprising results Though the origins of the Arab-Israeli conflict have traditionally been traced to the British Mandate (1920-1948) that ended with the creation of the Israeli state, a new generation of scholars has taken the investigation further back, to the Ottoman period. The first popular account of this key era, Jerusalem 1913 shows us a cosmopolitan city whose religious tolerance crumbled before the onset of Zionism and its corresponding nationalism on both sides-a conflict that could have been resolved were it not for the onset of World War I. With extraordinary skill, Amy Dockser Marcus rewrites the story of one of the world's most indelible divides.

**Under Jerusalem** Andrew Lawler 2021-11-02 A spellbinding history of the hidden world below the Holy City—a saga of biblical treasures, intrepid explorers, and political upheaval “A sweeping tale of archaeological exploits and their cultural and political consequences told with a historian’s penchant for detail and a journalist’s flair for narration.” —Washington Post In 1863, a French senator arrived in Jerusalem hoping to unearth relics dating to biblical times. Digging deep underground, he discovered an ancient grave that, he claimed, belonged to an Old Testament queen. News of his find ricocheted around the world, evoking awe and envy alike, and inspiring others to explore Jerusalem’s storied past. In the century and a half since the Frenchman broke ground, Jerusalem has drawn a global cast of fortune seekers and missionaries, archaeologists and zealots, all of them eager to extract the biblical past from beneath the city’s streets and shrines. Their efforts have had profound effects, not only on our understanding of Jerusalem’s history, but on its hotly disputed present. The quest to retrieve ancient Jewish heritage has sparked bloody riots and thwarted international peace agreements. It has served as a cudgel, a way to stake a claim to the most contested city on the planet. Today, the earth below Jerusalem remains a battleground in the struggle to control the city above. Under Jerusalem takes readers into the tombs, tunnels, and trenches of the Holy City. It brings to life the indelible characters who have investigated this subterranean landscape. With clarity and verve, acclaimed journalist Andrew Lawler reveals how their pursuit has not only defined the conflict over modern Jerusalem, but could provide a map for two peoples and three faiths to peacefully coexist.

**Land, Labor and the Origins of the Israeli-Palestinian Conflict, 1882-1914** Gershon Shafir 1996-08-19 Gershon Shafir challenges the heroic myths about the foundation of the State of Israel by investigating the struggle to control land and labor during the early Zionist enterprise. He argues that it was not the imported Zionist ideas that were responsible for the character of the Israeli state, but the particular conditions of the local conflict between the European "settlers" and the Palestinian Arab population.

**Futile Diplomacy - A History of Arab-Israeli Negotiations, 1913-56** Neil Caplan 2021-03-04 These four volumes provide a careful and balanced behind-the-scenes account of the intricate diplomatic activity of the period between 1913 and 1956. Exploiting a range of available archive sources as well as extensive secondary sources, they provide an authoritative analysis of the positions and strategies which the principal parties and the would-be mediators adopted in the elusive search for a stable peace. The text of each volume comprises both analytical-historical chapters and a selection of primary documents from archival sources, providing an essential reference source for the student of the Arab-Israeli conflict and its long history.

*Partitions and Their Afterlives* Radhika Mohanram 2019-06-28 Partitions and their Afterlives engages with political partitions and how their aftermath affects the contemporary life of nations and their citizens.

**The Palestinian People** Baruch Kimmerling 2009-07-01 In a timely reminder of how the past informs the present, Baruch Kimmerling and Joel Migdal offer an authoritative account of the history of the Palestinian people from their modern origins to the Oslo peace process and beyond. Palestinians struggled to create themselves as a people from the first revolt of the Arabs in Palestine in 1834 through the British Mandate to the impact of Zionism and the founding of Israel. Their relationship with the Jewish people and the State of Israel has been fundamental in shaping that identity, and today Palestinians find themselves again at a critical juncture. In the 1990s cornerstones for peace were laid for eventual Palestinian-Israeli coexistence, including mutual acceptance, the renunciation of violence as a permanent strategy, and the establishment for the first time of Palestinian self-government. But the dawn of the twenty-first century saw a reversion to unmitigated hatred and mutual demonization. By mid-2002 the brutal violence of the Intifada had crippled Palestine's fledgling political institutions and threatened the fragile social cohesion painstakingly constructed after 1967. Kimmerling and Migdal unravel what went right-and what went wrong-in the Oslo peace process, and what lessons we can draw about the forces that help to shape a people. The authors present a balanced, insightful, and sobering look at the realities of creating peace in the Middle East.

**The Origins of Israel, 1882-1948** Eran Kaplan 2011-12-01 In 1880 the Jewish community in Palestine encompassed some 20,000 Orthodox Jews; within sixty-five years it was transformed into a secular proto-state with well-developed political, military, and economic institutions, a vigorous Hebrew-language culture, and some 600,000 inhabitants. The Origins of Israel, 1882-1948: A Documentary History chronicles the making of modern Israel before statehood, providing in English the texts of original sources (many translated from Hebrew and other languages) accompanied by extensive introductions and commentaries from the volume editors. This sourcebook assembles a diverse array of 62 documents, many of them unabridged, to convey the ferment, dissent, energy, and anxiety that permeated the Zionist project from its inception to the creation of the modern nation of Israel. Focusing primarily on social, economic, and cultural history rather than Zionist thought and diplomacy, the texts are organized in themed chapters. They present the views of Zionists from many political and religious camps, factory workers, farm women, militants, intellectuals promoting the Hebrew language and arts—as well as views of ultra-Orthodox anti-Zionists. The volume includes important unabridged documents from the origins of the Arab-Israeli conflict that are often cited but are rarely read in full. The editors, Eran Kaplan and Derek J. Penslar, provide both primary texts and informative notes and commentary, giving readers the opportunity to encounter voices from history and make judgments for themselves about matters of world-historical significance. Best Special Interest Books, selected by the Public Library Reviewers Best Books for General Audiences, selected by the American Association of School Librarians

**Politics and Government in Israel** Gregory S. Mahler 2016-03-03 This balanced and comprehensive text explores Israeli government and politics, tracing the history of the state, and the social, religious, economic, and military environments of Israeli politics. Gregory Mahler’s concise book provides an invaluable start for readers needing an introduction to Israel today.

**The Israel-Palestine Conflict** James L. Gelvin 2007-10-02 The conflict between Israelis and their forebears, on the one hand, and Palestinians and theirs, on the other, has lasted more than a century and generated more than its share of commentaries and histories. James L. Gelvin’s account of that conflict offers a compelling, clear-cut, and up to date introduction for students and general readers. Beginning in the mid-nineteenth century, when the inhabitants of Ottoman Palestine and the Jews of eastern Europe began to conceive of themselves as members of national communities, the book traces the evolution and interaction of these communities from their first encounters in Palestine through to the present, exploring the external pressures and internal logic that has propelled their conflict. The book, which places events in Palestine within the framework of global history, skillfully interweaves biographical sketches, eyewitness accounts, poetry, fiction and official documentation into its narrative, and includes photographs, maps and an abundance of supplementary material. Now in a revised edition, Gelvin’s award-winning book takes the reader through the 2006 Summer War and its aftermath.

**The Arab-Israeli Conflict** Kirsten E. Schulze 2013-11-14 In this fully revised new edition, Kirsten Schulze brings us to a new understanding of the causes, course and consequences of the Arab-Israeli Conflict. Schulze analyses the dynamics of the violence and explores the numerous attempts at resolving the conflict. She assesses why, in the cases of Israel-Egypt in 1978 and Israel-Jordan in 1994, negotiations succeeded in bringing about a lasting peace and why, in the cases of Israel, and the Palestinians, Syria and Lebanon, they failed to do so. Written in a clear and accessible style, this fully updated second edition: · Traces the origins of the conflict from their first intellectual roots in the 19th century. · Examines the actions and aims of the competing nationalist movements during the period of the British Mandate which led to the creation of the state of Israel. · Outlines and analyses each of the Arab-Israeli conflicts from the creation of the state of Israel in 1948 to the 2006 Lebanon war and the on-going, second Palestinian uprising With a diverse collection of documents and a Chronology, Glossary, Guide to Further Reading, and a Who’s Who summarizing the careers and contributions of the main figures, this book is absolutely vital to understanding the current Israeli-Palestinian violence, the intra-Palestinian rift between Hamas and Fatah, and why the Arab-Israeli conflict has become the centre of Muslim politics, both violent and non-violent, across the world.

**Bordered Cities and Divided Societies** Scott A. Bollens 2021-03-18 Bordered Cities and Divided Societies is a provocative, moving, and poetic encounter with the hearts and minds of individuals living in nine cities of conflict, violence, and healing—Jerusalem, Belfast, Johannesburg, Nicosia, Sarajevo, Mostar, Barcelona, Bilbao, and Beirut. Based on research spanning 25 years, including 360 interviews and over two and a half years of in-country field research, this innovative work employs a series of concise reflective narrative essays, grouped into four thematic sections, to provide a humanistic, “on-the-ground” understanding of divided cities, conflict, and peacemaking. Incorporating both scholarly analyses based on empirical research and introspective essays, Bollens digs underneath grand narratives of conflict to illuminate the complexities and paradoxes of living amid nationalistic political strife and the challenges of planning and policymaking in divided societies. Richly illustrated, the book includes informative synopses about the cities that provide access for general readers while extensive connections to recent literature enhance the book’s research value to scholars.

*The Oxford Illustrated History of the Holy Land* Robert G. Hoyland 2018-09-06 The Oxford Illustrated History of the Holy Land covers the 3,000 years which saw the rise of Judaism, Christianity, and Islam—and relates the familiar stories of the sacred texts with the fruits of modern scholarship. Beginning with the origins of the people who became the Israel of the Bible, it follows the course of the ensuing millennia down to the time when the Ottoman Empire succumbed to British and French rule at the end of the First World War. Parts of the story, especially as known from the Bible, will be widely familiar. Less familiar are the ways in which modern research, both from archaeology and from other ancient sources, sometimes modify this story historically. Better understanding, however, enables us to appreciate crucial chapters in the story of the Holy Land, such as how and why Judaism developed in the way that it did from the earlier sovereign states of Israel and Judah and the historical circumstances in which Christianity emerged from its Jewish cradle. Later parts of the story are vital not only for the history of Islam and its relationships with the two older religions, but also for the development of pilgrimage and religious tourism, as well as the notions of sacred space and of holy books with which we are still familiar today. From the time of Napoleon on, European powers came increasingly to develop both cultural and political interest in the region, culminating in the British and French conquests which

carved out the modern states of the Middle East. Sensitive to the concerns of those for whom the sacred books of Judaism, Christianity, and Islam are of paramount religious authority, the authors all try sympathetically to show how historical information from other sources, as well as scholarly study of the texts themselves, enriches our understanding of the history of the region and its prominent position in the world’s cultural and intellectual history. **Jerusalem** Simon Goldhill 2010-03-30 Jerusalem is the site of some of the most famous religious monuments in the world, from the Dome of the Rock to the Church of the Holy Sepulchre to the Western Wall of the Temple. Since the nineteenth century, the city has been a premier tourist destination, not least because of the countless religious pilgrims from the three Abrahamic faiths. But Jerusalem is more than a tourist site—it is a city where every square mile is layered with historical significance, religious intensity, and extraordinary stories. It is a city rebuilt by each ruling Empire in its own way: the Jews, the Romans, the Christians, the Muslims, and for the past sixty years, the modern Israelis. What makes Jerusalem so unique is the heady mix, in one place, of centuries of passion and scandal, kingdom-threatening wars and petty squabbles, architectural magnificence and bizarre relics, spiritual longing and political cruelty. It is a history marked by three great forces: religion, war, and monumentality. In this book, Simon Goldhill takes on this peculiar archaeology of human imagination, hope, and disaster to provide a tour through the history of this most image-filled and ideology-laden city—from the bedrock of the Old City to the towering roofs of the Holy Sepulchre. Along the way, we discover through layers of buried and exposed memories—the long history, the forgotten stories, and the lesser-known aspects of contemporary politics that continue to make Jerusalem one of the most embattled cities in the world.

**A History of Modern Israel** Colin Shindler 2013-03-25 Colin Shindler’s remarkable history begins in 1948, as waves of immigrants arrived in Israel from war-torn Europe to establish new cities, new institutions, and a new culture founded on the Hebrew language. Optimistic beginnings were soon replaced with the sobering reality of wars with Arab neighbours, internal ideological differences, and ongoing confrontation with the Palestinians. In this updated edition, Shindler covers the significant developments of the last decade, including the rise of the Israeli far right, Hamas’s takeover and the political rivalry between Gaza and the West Bank, Israel’s uneasy dealings with the new administration in the United States, political Islam and the potential impact of the Arab Spring on the region as a whole. This sympathetic yet candid portrayal asks how a nation that emerged out of the ashes of the Holocaust and was the admiration of the world is now perceived by many Western governments in a less than benevolent light.

**The Rough Guide to Jerusalem** Rough Guides 2009-10-01 The Rough Guide to Jerusalem is the ultimate travel guide with clear maps and detailed coverage of all the best attractions the holy city has to offer. Find practical advice on what to see and do in Jerusalem whilst relying on up-to-date descriptions of the best Jerusalem hotels, restaurants bars, cafés and shops from bare-bones budget to lap-of-luxury deluxe. The Rough Guide to Jerusalem gets under the skin of the city, with expert background on everything from Jerusalem’s history to the political controversies surrounding it. The guide features a chapter on each of the Old City’s four traditional quarters with explanations of all Jerusalem’s holy sites, historical buildings and contentious hotspots. Travellers wanting to venture out into Israel or the West Bank will find a section on excursions including places with biblical resonance such as Bethlehem, Hebron, Jericho, the Dead Sea as well as Israel’s brash and exciting commercial capital, Tel Aviv. Make the most of Your time with The Rough Guide to Jerusalem

**The View from Nebo** Amy Dockser Marcus 2000 Examines new evidence about the Biblical world to challenge existing notions about the Bible and its texts.

*City of Oranges: An Intimate History of Arabs and Jews in Jaffa* Adam LeBor 2011-08-29 A profoundly human take on the Israeli-Palestinian conflict, seen through the eyes of six families, three Arab and three Jewish. The millennia-old port of Jaffa, now part of Tel Aviv, was once known as the "Bride of Palestine," one of the truly cosmopolitan cities of the Mediterranean. There Muslims, Jews, and Christians lived, worked, and celebrated together—and it was commonplace for the Arabs of Jaffa to attend a wedding at the house of the Jewish Chelouche family or for Jews and Arabs to both gather at the Jewish spice shop Tip and the Arab Khamis Abulafia’s twenty-four-hour bakery. Through intimate personal interviews and generations-old memoirs, letters, and diaries, Adam LeBor gives us a crucial look at the human lives behind the headlines—and a vivid narrative of cataclysmic change.

*Islam under the Palestine Mandate* Nicholas E. Roberts 2016-11-30 Concerns about the place of Islam in Palestinian politics are familiar to those studying the history of the modern Middle East. A significant but often misunderstood part of this history is the rise of Islamic opposition to the British in Mandate Palestine during the 1920s and 1930s. Across the empire, imperial officials wrestled with the question of how to rule over a Muslim-majority countries and came to see traditional Islamic institutions as essential for maintaining order. Islam under the Palestine Mandate tells the story of the search for a viable Islamic institution in Palestine and the subsequent invention of the Supreme Muslim Council. As a body with political recognition, institutional autonomy and financial power, the council was designed to be a counterweight to the growing popularity of nationalism among Palestinians. However, rather than extinguishing the revolutionary capacity of the colonized, it would become a significant opponent of British rule under its highly controversial president, the Grand Mufti of Jerusalem, Hajj Amin al-Husayni. Making extensive use of primary sources from British and Israeli archives, this book offers an innovative account of the Supreme Muslim Council’s place within a colonial project that aimed to control Palestinian religion and politics. Roberts argues against the standard view that the council’s creation was an act of appeasement towards Muslim opinion, showing how British actions were guided by techniques of imperial administration used elsewhere in the empire.

**The Israel-Palestine Conflict** Neil Caplan 2019-09-11 One of the “10 Must-Read Histories of the Palestine-Israel Conflict” —Ian Black, Literary Hub, on the 100th anniversary of the Balfour Declaration The new edition of the acclaimed text that explores the issues continuing to define the Israeli-Palestinian conflict Numerous instances of competing, sometimes incompatible narratives of controversial events are found throughout history. Perhaps the starkest example of such contradictory representations is the decades-long conflict between Israel and Palestine. For over 140 years, Israelis, Palestinians, and scores of peacemakers have failed to establish a sustainable, mutually-acceptable solution. The Israel-Palestine Conflict introduces the historical basis of the dispute and explores both the tangible issues and intangible factors that have blocked a peaceful resolution. Author Neil Caplan helps readers understand the complexities and contradictions of the conflict and why the histories of Palestine and Israel are so fiercely contested. Now in its second edition, this book has been thoroughly updated to reflect the events that have transpired since its original publication. Fresh insights consider the impact of current global and regional instability and violence on the prospects of peace and reconciliation. New discussions address recent debates over two-state versus one-state solutions, growing polarization in public discourse outside of the Middle East, the role of public intellectuals, and the growing trend of merging scholarship with advocacy. Part of the Wiley-Blackwell Contested Histories series, this clear and accessible volume: Offers a balanced, non-polemical approach to current academic discussions and political debates on the Israel-Palestine conflict Highlights eleven core arguments viewed by the author as unwinnable Encourages readers to go beyond simply assigning blame in the conflict Explores the major historiographical debates arising from the dispute Includes updated references and additional maps Already a standard text for courses on the history and politics of the Middle East, The Israel-Palestine Conflict is an indispensable resource for students, scholars, and interested general readers.

**The Recovery of Palestine, 1917** Stanley Weintraub 2017-03-07 By mid-1917, with the world war going badly on all fronts, and casualties burgeoning, Prime Minister David Lloyd George met with General Edmund Allenby, fresh from France. Lloyd George wanted “Jerusalem for Christmas” as a holiday “present” for the increasingly disillusioned British people. Its seizure would also eliminate the Ottomans, who had inflicted the dismaying disaster at the Dardanelles, as a factor in the war. As Allenby departed, the PM handed him George Adam Smith’s Historical Geography of the Holy Land, remarking that it was a better guide to reaching Jerusalem than anything “in the pigeon holes of the War Office”. Having been raised on the Bible, Allenby, as this narrative illustrates, did indeed exploit it. He would also have unanticipated expertise from an unknown and unilitary officer, T. E. Lawrence, who turned his Arabian “sideshow” into campaigns distracting the Turks and their German military leadership. The desert war would be hard-fought, but, that December, after centuries in Muslim hands and with its sacred sites intact, Jerusalem fell.

**Whose Promised Land** Colin Chapman 2015-07-17 The conflict between Israel and the Palestinians has profoundly affected the Middle East for almost seventy years, and shows no sign of ending. With two peoples claiming the same piece of land for different reasons, it remains a huge political and humanitarian problem. Can it ever be resolved? If so, how? These are the basic questions addressed in a new and substantially revised fifth edition of this highly acclaimed book. Having lived and worked in the Middle East at various times since 1968, Colin Chapman explains the roots of the problem and outlines the arguments of the main parties involved. He also explores the theme of land in the Old and New Testaments, discussing legitimate and illegitimate ways of using the Bible in relation to the conflict. This new and fully updated edition covers developments since 9/11, including the building of the security wall, the increased importance of Hamas and the Islamic dimension of the conflict, and the attacks on Lebanon and Gaza.

*Defining Neighbors* Jonathan Marc Gribetz 2016-10-11 How religion and race—not nationalism—shaped early encounters between Zionists and Arabs in Palestine As the Israeli-Palestinian conflict persists, aspiring peacemakers continue to search for the precise territorial dividing line that will satisfy both Israeli and Palestinian nationalist demands. The prevailing view assumes that this struggle is nothing more than a dispute over real estate. Defining Neighbors boldly challenges this view, shedding new light on how Zionists and Arabs understood each other in the earliest years of Zionist settlement in Palestine and suggesting that the current singular focus on boundaries misses key elements of the conflict. Drawing on archival documents as well as newspapers and other print media from the final decades of Ottoman rule, Jonathan Gribetz argues that Zionists and Arabs in pre-World War I Palestine and the broader Middle East did not think of one another or interpret each other’s actions primarily in terms of territory or nationalism. Rather, they tended to view their neighbors in religious terms—as Jews, Christians, or Muslims—or as members of “scientifically” defined races—Jewish, Arab, Semitic, or otherwise. Gribetz shows how these communities perceived one another, not as strangers vying for possession of a land that each regarded as exclusively their own, but rather as deeply familiar, if at times mythologized or distorted, others. Overturning conventional wisdom about the origins of the Israeli-Palestinian conflict, Gribetz demonstrates how the seemingly intractable nationalist contest in Israel and Palestine was, at its start, conceived of in very different terms. Courageous and deeply compelling, Defining Neighbors is a landmark book that fundamentally recasts our understanding of the modern Jewish-Arab encounter and of the Middle East conflict today.

**"Not by Might, Nor by Power"** Moshe Menuhin 2017-03-07 With a new introduction by Adi Ophir: An early and fierce critique of Zionism from a Jewish child of Palestine who argued against nationalism and injustice. Born in 1893, Moshe Menuhin was part of the inaugural class to attend the first Zionist high school in Palestine, the Herzliya gymnasium in Tel Aviv. He had grown up in a Hasidic home, but eventually rejected orthodoxy while remaining dedicated to Judaism. As a witness to the evolution of Israel, Menuhin grew disaffected with what he saw as a betrayal of the Jews’ spiritual principles. This memoir, written in 1965, is considered the first revisionist history of Zionism. A groundbreaking document, it discusses the treatment of the Palestinians, the effects of the Holocaust, the exploitation of the Mizrahi Jewish immigrants, and the use of propaganda to win over public opinion in America and among American Jews. In a postscript added after the Six-Day War, Menuhin also addresses the question of occupation. This new edition is updated with an introduction by Israeli philosopher Adi Ophir, putting Menuhin’s work into a contemporary historical context. Passionate and sometimes inflammatory in its prose, and met with controversy and anger upon its original publication under the title The Decadence of Judaism in Our Time, Menuhin’s polemic remains both a thought-provoking reassessment of Zionist history and a fascinating look at one observer’s experience of this embattled corner of the world over the course of several tumultuous decades.

**Reclaiming Israel's History** David Brog 2017-03-20 The Real History of Israel and the Palestinians No history is so disputed as the history of Israel. Some see Israel’s creation as a dramatic act of justice for the Jewish people. Others insist that it was a crime against Palestine’s Arabs. Author David Brog untangles the facts from the myths to reveal the truth about the Arab-Israeli conflict. In Reclaiming Israel’s History you’ll learn how the Jewish people have maintained a continual presence in the Land of Israel for over 3,000 years—despite centuries of Roman, Byzantine, and Muslim persecution; how the Romans invented the word “Palestine” as a way to sever the connection between the Jewish people and their land (and how subsequent conquerors doubled down on this strategy); how modern Jewish immigration to Palestine did not displace Arabs but instead sparked an Arab population boom; and the largely untold story of how the leader of Palestine’s Arabs collaborated with the Nazis to murder Jews in Europe before they could reach their ancestral homeland. You’ll also learn why most of Palestine’s Arabs never identified themselves as “Palestinians” until after the 1967 War; the extraordinary lengths to which Israel’s military goes to protect Palestinian civilians (and the high price Israel’s soldiers pay for this morality), and how the Palestinians have on separate occasions rejected Israel’s offers of a Palestinian state in virtually all of the West Bank and Gaza. Brog frankly admits to Israel’s “sins both large and small,” but notes that in any fair-minded analysis these have been far out-weighted by Israel’s commitment to Western values, including freedom, democracy, and human rights. Honest,

provocative, and timely, especially given rising anti-Semitism and the aggressive delegitimization of Israel, David Brog's *Reclaiming Israel's History* is the book for every reader who wants to understand what is really happening in the Middle East.

**The Oxford Handbook of Israeli Politics and Society** Professor and Chair of Political Science Reuven Y Hazan 2021-02-15 "Few countries receive as much attention as Israel and are at the same time as misunderstood. The Oxford Handbook of Israeli Politics and Society brings together leading Israeli and international figures to offer the most wide-ranging treatment available of an intriguing country. It serves as a comprehensive reference for the growing field of Israel studies and is also a significant resource for students and scholars of comparative politics, recognizing that in many ways Israel is not unique, but rather a test case of democracy in deeply divided societies and states engaged in intense conflict. The handbook presents an overview of the historical development of Israeli democracy through chapters examining the country's history, contemporary society, political institutions, international relations, and most pressing political issues. It outlines the most relevant developments over time while not shying away from the strife both in and around Israel. It presents opposed narratives in full force, enabling readers to make their own judgments"-

**A History of Palestine** Gudrun Krämer 2011-02-22 It is impossible to understand Palestine today without a careful reading of its distant and recent past. But until now there has been no single volume in English that tells the history of its kind, *A History of Palestine* offers a richly detailed interpretation of this critical region's evolution. Starting with the prebiblical and biblical roots of Palestine, noted historian Gudrun Krämer examines the meanings ascribed to the land in the Jewish, Christian, and Muslim traditions. Paying special attention to social and economic factors, she examines the gradual transformation of Palestine, following the history of the region through the Egyptian occupation of the mid-nineteenth century, the Ottoman reform era, and the British Mandate up to the founding of Israel in 1948.

Focusing on the interactions of Arabs and Jews, *A History of Palestine* tells how these connections affected the cultural and political evolution of each community and Palestine as a whole.

**Historical Dictionary of the Arab-Israeli Conflict** P R Kumaraswamy 2015-10-08 This second edition of *Historical Dictionary of the Arab-Israeli Conflict* covers the history through a chronology, an introductory essay, appendixes, and an extensive bibliography. The dictionary section has over 600 cross-referenced entries important events, key personalities, official positions of principal states and the UN and other efforts to find a peaceful settlement.. This book is an excellent access point for students, researchers, and anyone wanting to know more about this conflict.

**Overlooking the Border** Dana Hercbergs 2018-10-01 An ethnographic tapestry of personal and institutional narratives about Jerusalem's social history.

**Futile Diplomacy: Operation Alpha and the failure of Anglo-American coercive diplomacy in the Arab-Israeli conflict, 1954-1956** Neil Caplan 1983 These four volumes provide a careful and balanced behind-the-scenes account of the intricate diplomatic activity of the period between 1913 and 1956. Exploiting a range of available archive sources as well as extensive secondary sources, they provide an authoritative analysis of the positions and strategies which the principal parties and the would-be mediators adopted in the elusive search for a stable peace. The text of each volume comprises both analytical-historical chapters and a selection of primary documents from archival sources ...

**The Israel-Palestine Conflict** James L. Gelvin 2021-03-11 The fourth edition of this award-winning account of the conflict between Israel and Palestine for students and general readers.

**The Crusaders in the Holy Land** Meron Benvenisti 1972

**Jacob & Esau** Malachi Haim Hacohen 2018-12-31 Accommodates both the cosmopolitan narrative of the Jewish diaspora with traditional Jews and their culture.

**What Ifs of Jewish History** Gavriel D. Rosenfeld 2016-08-31 Counterfactual history of the Jewish past inviting readers to explore how the course of Jewish history might have been different.

**The Jewish State** Theodor Herzl 1934
