**Muslims in Global Politics** Mahmood Monshipouri 2011-07-07 In Egypt Islamists clash with secularists over religious and national identity, while in Turkey secularist ruling elites have chosen to accommodate Islamists in the name of democracy and reconciliation. As Islam spreads throughout the world, Muslims living in their traditional homelands and in the Western world are grappling with shifting identities. In all cases, understanding the dynamics of identity-based politics is critical to the future of Muslims and their neighbors across the globe. In Muslims in Global Politics, Mahmood Monshipouri examines the role identity plays in political conflicts in six Muslim nations—Egypt, Iraq, the United Arab Emirates, Turkey, Iran, and Indonesia—as well as in Muslim diaspora communities in Europe and North America. In each instance, he describes how conservatives, neofundamentalists, reformists, and secularists construct identity in different ways and how these identities play out in the political arena. With globalization, the demand for human rights continues to grow in the Muslim world, and struggles over modernity, authenticity, legitimacy, and rationality become increasingly important. Muslims in Global Politics deepens our understanding of how modern ideas and norms interact with the traditions of the Islamic world and, in turn, shows how human rights advocates can provide an alternative to militant Islamist movements.

**Lemon-Aid Used Cars and Trucks 2012-2013** Phil Edmonston 2012-05-19 Lemon-Aid guides steer the confused and anxious buyer through the economic meltdown unlike any other car-and-truck books on the market. U.S. automakers are suddenly awash in profits, and South Koreans and Europeans have gained market shares, while Honda, Nissan, and Toyota have curtailed production following the 2011 tsunami in Japan. Shortages of Japanese new cars and supplier disruptions will likely push used car prices through the roof well into 2012, so what should a savvy buyer do? The all-new Lemon-Aid Used Cars and Trucks 2012-2013 has the answers, including: More vehicles rated, with some redesigned models that don't perform as well as previous iterations downrated. More roof crash-worthiness ratings along with an expanded cross-border shopping guide. A revised summary of safety- and performance-related defects that are likely to affect rated models. More helpful websites listed in the appendix as well as an updated list of the best and worst "beaters" on the market. More "secret" warranties taken from automaker internal service bulletins and memos than ever.
