Consulting Group (PCG) 2015-08-24 Paths to College and Career is a new, comprehensive English Language Arts curriculum for grades 6 to 12 built from the ground up over a three-year period to address the Common Core State Standards (CCSS) for English Language Arts and Literacy. It reflects a deep understanding of the standards and assessments, and is written with a focus

on the shifts in instructional practice and student experiences the standards require. It includes daily lesson plans, guiding questions, recommended texts, scaffolding strategies, and other classroom resources. Paths to College and Career provides teachers, schools, and districts with a concrete and practical ELA instructional program that engages students with compelling and complex texts. At each grade level, Paths to College and Career delivers a yearlong curriculum that develops all students' ability to * read closely and engage in text-based discussions, * build evidence-based claims and arguments, * conduct research and write from sources, and * expand their academic vocabulary. Paths to College and Career's instructional resources address the needs of all learners, including students with disabilities, English language learners, and gifted and talented. The curriculum is flexible, user friendly, engaging, and purposefully built to prepare students for career, college, and life. In Module 3 of Grade 11, students engage in an inquiry-based, iterative process for research. Building on work with evidence-based analysis in Modules 1 and 2 of Grade 11, students explore topics that have multiple positions and perspectives by gathering and analyzing research based on vetted sources to establish a position of their own. Students first generate a written evidence-based perspective, which will serve as the early foundation of what will ultimately become a written research-based argument paper. The research-based argument paper synthesizes and articulates several claims using valid reasoning and relevant and sufficient evidence to support the claims. Students read and analyze sources to surface potential problem-based questions for research, and develop and strengthen their writing by revising and

editing.
