

Topics On The Holocaust For Research Paper

Thank you totally much for downloading **Topics On The Holocaust For Research Paper**. Most likely you have knowledge that, people have seen numerous times for their favorite books considering this Topics On The Holocaust For Research Paper, but end stirring in harmful downloads.

Rather than enjoying a good ebook past a mug of coffee in the afternoon, instead they juggled like some harmful virus inside their computer. **Topics On The Holocaust For Research Paper** is comprehensible in our digital library an online right of entry to it is set as public hence you can download it instantly. Our digital library saves in multipart countries, allowing you to acquire the most less latency period to download any of our books subsequently this one. Merely said, the Topics On The Holocaust For Research Paper is universally compatible like any devices to read.

Holocaust Historiography in Context David Bankier 2008 The modes in which historical research is being shaped have become

themselves topics of research. Holocaust historiography - the documentation, depiction and analysis of one of the most horrific events

in human history - is today a wide ranging academic field in which Jewish and non-Jewish scholars throughout the world are active. But how did this historiography, especially its Jewish aspect, emerge and by what factors was it shaped? This volume examines the very beginnings of the effort to apply scholarly standards to the understanding of the Holocaust - when World War II was still raging and immediately after it had ended.

Directory of Holocaust Institutions 1988

The Origins of the Holocaust Michael Robert Marrus 1989-01-01 Diese Reihe bietet erstmals eine Basissammlung von Faksimiles englischsprachiger historischer Artikel zu allen Aspekten der Vernichtung der europäischen Juden. Die

große Anzahl von annähernd 300 Aufsätzen aus 84 Zeitschriften und Sammlungen ermöglicht den Lesern, sich einen Überblick über diesen Themenkomplex zu verschaffen. Die Reihe beginnt mit einem Rückblick auf die Wurzeln des Antisemitismus und einer Darstellung der verschiedenen wissenschaftlichen Methoden zur Erforschung des Holocaust. Die Reihe endet mit der Dokumentation der Befreiung der Konzentrationslager und mit Aufsätzen zu den Kriegsverbrecherprozessen. Der Erscheinungszeitraum umfasst die Jahre 1950 bis 1987, zu den Verfassern gehören beispielsweise Jakob Katz, Saul Friedländer, Eberhard Jäckel, Bruno Bettelheim und Herbert A. Strauss.

The Holocaust Peter

Downloaded from head-fs.bedwintokyo.com on August 11, 2022 by guest

Neville 1999-06-24 This text provides an authoritative and lucid study of the Holocaust. In concise chapters, Peter Neville surveys the history of anti-Semitism in Europe and examines the influence of anti-Semitic ideas on Hitler and the Nazi Party. An account is given of the extermination program; the tensions between this and the German war economy is explained. The text then charts the development of the Jewish resistance and considers its effectiveness. The response of the Allies to the Holocaust is explored, together with the role of the Vatican. The final chapters look at the issue of Holocaust denial and assess the legacy of the Holocaust in the modern world. The Holocaust contains a range of key primary and secondary

sources.

Becoming Hitler Thomas Weber 2017-11-09 In *Becoming Hitler*, Thomas Weber continues from where he left off in his previous book, *Hitler's First War*, stripping away the layers of myth and fabrication in Hitler's own tale to tell the real story of Hitler's politicisation and radicalisation in post-First World War Munich. It is the gripping account of how an awkward and unemployed loner with virtually no recognisable leadership qualities and fluctuating political ideas turned into the charismatic, self-assured, virulently anti-Semitic leader with an all-or-nothing approach to politics with whom the world was soon to become tragically familiar. As Weber clearly shows, far from the picture of a

fully-formed political leader which Hitler wanted to portray in Mein Kampf, his ideas and priorities were still very uncertain and largely undefined in early 1919 - and they continued to shift until 1923.

Research in Teaching and Learning about the Holocaust Jolanta Ambrosewicz-Jacobs
2017-02-20

Israeli Holocaust Research Boaz Cohen 2013
An exploration of the development of Holocaust research in Israel, this book ranges from the consolidation of Holocaust research as an academic subject in the late 1940s to the establishment of Yad Vashem and beyond. Research on the story of historiography is often a work on books, on the "final products" that fill academic bookshelves yet, in Israeli Holocaust

Research, Boaz Cohen illustrates that the evolution of Holocaust research in Israel has a more human element to it. Drawing on knowledge gained through seven years of work in ten major archives in Israel, the author reveals a previously unseen picture of the development of Israeli Holocaust research "from below," and of the social and cultural forces influencing its character. In doing so, a new facet to the picture emerges, of the story beyond the archive and the people who see Holocaust research as their mission and responsibility. This book will be a fascinating addition to the study of Holocaust research and will be of particular interest to students of history, historiography and Jewish studies

Bulletin 1994

The Holocaust as Active Memory

Dr Claudia Lenz
2013-06-28 The ways in which memories of the Holocaust have been communicated, represented and used have changed dramatically over the years. From such memories being neglected and silenced in most of Europe until the 1970s, each country has subsequently gone through a process of cultural, political and pedagogical awareness-rising. This culminated in the 'Stockholm conference on Holocaust commemoration' in 2000, which resulted in the constitution of a task force dedicated to transmitting and teaching knowledge and awareness about the Holocaust on a global scale. The silence surrounding private memories of the Holocaust has also been

challenged in many families. What are the catalysts that trigger a change from silence to discussion of the Holocaust? What happens when we talk its invisibility away? How are memories of the Holocaust reflected in different social environments? Who asks questions about memories of the Holocaust, and which answers do they find, at which point in time and from which past and present positions related to their societies and to the phenomenon in question? This book highlights the contexts in which such questions are asked. By introducing the concept of 'active memory', this book contributes to recent developments in memory studies, where memory is increasingly viewed not in isolation but as a dynamic and relational part of human lives.

Holocaust Education

Stuart Foster 2020-07-06

Teaching and learning about the Holocaust is central to school curriculums in many parts of the world. As a field for discourse and a body of practice, it is rich, multidimensional and innovative. But the history of the Holocaust is complex and challenging, and can render teaching it a complex and daunting area of work. Drawing on landmark research into teaching practices and students' knowledge in English secondary schools, *Holocaust Education: Contemporary challenges and controversies* provides important knowledge about and insights into classroom teaching and learning. It sheds light on key challenges in Holocaust education, including the impact of misconceptions and

misinformation, the dilemmas of using atrocity images in the classroom, and teaching in ethnically diverse environments. Overviews of the most significant debates in Holocaust education provide wider context for the classroom evidence, and contribute to a book that will act as a guide through some of the most vexed areas of Holocaust pedagogy for teachers, teacher educators, researchers and policymakers.

Lessons and Legacies I

Peter Hayes 1991-08-01

Winner of the 1992 Anisfield-Wolf Book Award Nearly half a century after the Nazi massacre of the Jews in Europe, the Holocaust is now moving from the domain of experience to that of history. It is becoming the subject of recorded rather than living memory. Is real comprehension of the

development and horror of the Nazi onslaught accessible to us? If so, through what intellectual processes or categories of understanding, and in the face of what temptations or diversions? How can we preserve, expand, and apply our knowledge of why and how barbarity came to prevail? What meaning can present and future generations derive from the catastrophe? These are the vital questions addressed by the essays in this volume.

Different Horrors, Same Hell Myrna Goldenberg
2013-05-15 Different Horrors, Same Hell brings together a variety of essays demonstrating the breadth of contributions that feminist theory and gender analysis make to the study of the Holocaust. The collection provides new

perspectives on central works of Holocaust scholarship and representation, from the books of Hannah Arendt and Ruth Klöger to films such as Claude Lanzmann's Shoah and Steven Spielberg's Schindler's List. Interviews with survivors and their descendants draw new attention to the significance of women's roles and family structures during and in the aftermath of the Holocaust, and interviews and archival research reveal the undercurrents of sexual violence within the Final Solution. As Doris Bergen shows in the book's first chapter, the focus on women's and gender issues in this collection "complicates familiar and outworn categories, and humanizes the past in powerful ways."

The Anatomy of the

Holocaust Raul Hilberg†
2019-11-01 Though best known as the author of the landmark 1961 work *The Destruction of the European Jews*, the historian Raul Hilberg produced a variety of archival research, personal essays, and other works over a career that spanned half a century. *The Anatomy of the Holocaust* collects some of Hilberg's most essential and groundbreaking writings—many of them published in obscure journals or otherwise inaccessible to nonspecialists—in a single volume. Supplemented with commentary and notes from Hilberg's longtime German editor and his biographer, it not only offers a multifaceted look at the man and the scholar, but also traces the evolution of Holocaust research from a marginal subdiscipline

into a diverse and vital intellectual project.

Dry Tears Nechama Tec

Secondary Schools Alice Pettigrew 2009 The ground-breaking report *Teaching About the Holocaust in English Secondary Schools: An empirical study of national trends, perspectives and practice* explores when, where, how and why the Holocaust is taught in state-maintained secondary schools in England. The challenges and issues identified have been used to design and develop the world's first research-informed programme of teacher professional development in Holocaust education. The landmark national research that underpins this report employed a two-phase mixed methodology. This comprised an online survey which was completed by more than 2,000 respondents and follow-up interviews with 68 teachers in 24 different schools

throughout England. The report is the largest endeavour of its kind in the United Kingdom in both scope and scale. The authors hope it will be of considerable value to all those concerned with the advancement and understanding of Holocaust education both in the UK and internationally.

Remembering the Holocaust Jeffrey C. Alexander 2009-07-27 *Remembering the Holocaust* explains why the Holocaust has come to be considered the central event of the 20th century, and what this means. Presenting Jeffrey Alexander's controversial essay that, in the words of Geoffrey Hartman, has already become a classic in the Holocaust literature, and following up with challenging and equally provocative responses to it, this book offers a

sweeping historical reconstruction of the Jewish mass murder as it evolved in the popular imagination of Western peoples, as well as an examination of its consequences.

Alexander's inquiry points to a broad cultural transition that took place in Western societies after World War II: from confidence in moving past the most terrible of Nazi wartime atrocities to pessimism about the possibility for overcoming violence, ethnic conflict, and war. The Holocaust has become the central tragedy of modern times, an event which can no longer be overcome, but one that offers possibilities to extend its moral lessons beyond Jews to victims of other types of secular and religious strife.

Following Alexander's controversial thesis is a series of responses by

distinguished scholars in the humanities and social sciences--Martin Jay, Bernhard Giesen, Michael Rothberg, Robert Manne, Nathan Glazer, and Elihu & Ruth Katz--considering the implications of the universal moral relevance of the Holocaust. A final response from Alexander in a postscript focusing on the repercussions of the Holocaust in Israel concludes this forthright and engaging discussion. Remembering the Holocaust is an all-too-rare debate on our conception of the Holocaust, how it has evolved over the years, and the profound effects it will have on the way we envision the future.

Why Should We Teach about the Holocaust?

Jolanta Ambrosewicz-Jacobs 2005

Curriculum Handbook with General Information Concerning ... for the

United States Air Force Academy United States Air Force Academy 2004
Writing in the Social Studies Aaron Pribble
2021-03-15 Writing in the Social Studies is a practical guide for educators. On each page are strategies, tips, and takeaways for teachers to implement in their classroom, while every chapter concludes with helpful handouts to distribute directly to students. Beginning with a framework and pacing guide, Writing in the Social Studies examines foundational, academic, and real-world writing, concluding with a methodology for grading and a spirited plea for teachers to write themselves. Teachers who believe in teaching "skills through content" finally have a blueprint from which to work. Those who understand it is imperative students graduate with the

ability to think critically and express a point of view now have a vehicle with which to achieve their goals. Writing in the Social Studies will be the first book to tackle this crucial yet neglected corner of the curriculum. There is a desperate need for professional development in this area, and therefore also tremendous opportunity. It is a professional imperative that social studies educators teach a variety of writing skills through content. As a result they should have access to a resource which clearly and engagingly shows them how. This is Writing in the Social Studies.

Africans and the Holocaust Edward Kissi
2019-08-22 This book is an original and comparative study of reactions in West and

East Africa to the persecution and attempted annihilation of Jews in Europe and in former German colonies in sub-Saharan Africa during the Second World War. An intellectual and diplomatic history of World War II and the Holocaust, Africans and the Holocaust looks at the period from the perspectives of the colonized subjects of the Gold Coast, Nigeria, Sierra Leone, Kenya, Tanganyika, and Uganda, as well as the sovereign peoples of Liberia and Ethiopia, who wrestled with the social and moral questions that the war and the Holocaust raised. The five main chapters of the book explore the pre-Holocaust history of relations between Jews and Africans in West and East Africa, perceptions of Nazism in both regions, opinions of World War II,

interpretations of the Holocaust, and responses of the colonized and sovereign peoples of West and East Africa to efforts by Great Britain to resettle certain categories of Jewish refugees from Europe in the two regions before and during the Holocaust. This book will be of use to students and scholars of African history, Holocaust and Jewish studies, and international or global history.

Israeli-Romanian Relations at the End of the Ceausescu Era Yosef Govrin 2014-02-25 Yosef Govrin was the Israeli Ambassador to Romania in the twilight of the communist era. Govrin describes Israeli-Romanian relations as he observed them from 1985 to 1989 after which the leader of Romania was deposed.

Geographies of the

Holocaust Anne Kelly Knowles 2014-09-19 “[A] pioneering work . . . Shed[s] light on the historic events surrounding the Holocaust from place, space, and environment-oriented perspectives.” –Rudi Hartmann, PhD, Geography and Environmental Sciences, University of Colorado This book explores the geographies of the Holocaust at every scale of human experience, from the European continent to the experiences of individual human bodies. Built on six innovative case studies, it brings together historians and geographers to interrogate the places and spaces of the genocide. The cases encompass the landscapes of particular places (the killing zones in the East, deportations from sites in Italy, the camps of Auschwitz, the

ghettos of Budapest) and the intimate spaces of bodies on evacuation marches. Geographies of the Holocaust puts forward models and a research agenda for different ways of visualizing and thinking about the Holocaust by examining the spaces and places where it was enacted and experienced. “An excellent collection of scholarship and a model of interdisciplinary collaboration . . . The volume makes a timely contribution to the ongoing emergence of the spatial humanities and will undoubtedly advance scholarly and popular understandings of the Holocaust.” –H-HistGeog “An important work . . . and could be required reading in any number of courses on political geography, GIS, critical theory, biopolitics, genocide, and so forth.” –Journal of Historical

Critical

Multiculturalism Stephen May 2010-07-01 This book brings together international scholars of critical multiculturalism to directly and illustratively address what a transformed critical multicultural approach to education might mean for teacher education and classroom practice.

Guidelines for Teaching about the Holocaust 1994

Anti-Zionism and

Antisemitism Alvin H. Rosenfeld 2019-01-09 How and why have anti-Zionism and antisemitism become so radical and widespread? This timely and important volume argues convincingly that today’s inflamed rhetoric exceeds the

boundaries of legitimate criticism of the policies and actions of the state of Israel and conflates anti-Zionism with antisemitism. The contributors give the dynamics of this process full theoretical, political, legal, and educational treatment and demonstrate how these forces operate in formal and informal political spheres as well as domestic and transnational spaces. They offer significant historical and global perspectives of the problem, including how Holocaust memory and meaning have been reconfigured and how a singular and distinct project of delegitimization of the Jewish state and its people has solidified. This intensive but extraordinarily rich contribution to the study of antisemitism stands out for its

comprehensive overview of an issue that is very much in the public eye.

History and Memory:

Lessons from the

Holocaust Saul

Friedländer 2014-10-01

This ePaper, *History and Memory: lessons from the*

Holocaust, presents the

original text of the

Leçon inaugurale

delivered by Professor

Saul Friedländer on 23

September 2014 at the

Maison de la Paix, which

marked the opening of

the academic year of the

Graduate Institute,

Geneva. The lecture

highlights an original

analysis of the

evolution of German

memory since the end of

World War II and its

consequences on the

writing of history.

Generations of

historians have been

particularly marked in a

differentiated manner,

depending on their

personal proximity to

the war, but also on

collective

representations conveyed

by film and television

in a globalised world.

Saul Friedländer is

Emeritus Professor at

the University of

California Los Angeles

(UCLA). He won numerous

awards, including the

Pulitzer Prize in 2008

for his book *The Years*

of Extermination: Nazi

Germany and the Jews,

1939-1945. In 1963, he

received his PhD from

the Graduate Institute

of International Studies

in Geneva, where he

taught until 1988.

Teaching for Historical

Literacy Matthew T.

Downey 2015-07-30

Teaching for Historical

Literacy combines the

elements of historical

literacy into a coherent

instructional framework

for teachers. It

identifies the role of

historical literacy,

analyzes its importance

in the evolving

educational landscape,

and details the action steps necessary for teachers to implement its principles throughout a unit. These steps are drawn from the reflections of real teachers, grounded in educational research, and consistent with the Common Core State Standards. The instructional arc formed by authors Matthew T. Downey and Kelly A. Long takes teachers from start to finish, from managing the prior learning of students to developing their metacognition and creating synthesis at the end of a unit of study. It includes introducing topics by creating a conceptual overview, helping students collect and analyze evidence, and engaging students in multiple kinds of learning, including factual, procedural, conceptual, and

metacognitive. This book is a must-have resource for teachers and students of teaching interested in improving their instructional skills, building historical literacy, and being at the forefront of the evolving field of history education.

History Education and Conflict Transformation
Charis Psaltis

2017-08-29 This book is open access under a CC BY 4.0 license. This volume discusses the effects, models and implications of history teaching in relation to conflict transformation and reconciliation from a social-psychological perspective. Bringing together a mix of established and young researchers and academics, from the fields of psychology, education, and history, the book provides an in-depth exploration of the role of historical

narratives, history teaching, history textbooks and the work of civil society organizations in post-conflict societies undergoing reconciliation processes, and reflects on the state of the art at both the international and regional level. As well as dealing with the question of the 'perpetrator-victim' dynamic, the book also focuses on the particular context of transition in and out of cold war in Eastern Europe and the post-conflict settings of Northern Ireland, Israel and Palestine and Cyprus. It is also exploring the pedagogical classroom practices of history teaching and a critical comparison of various possible approaches taken in educational praxis. The book will

make compelling reading for students and researchers of education, history, sociology, peace and conflict studies and psychology.

major Nazi figures

Holocaust Justice

Michael J. Bazyler

2005-04-01 The Holocaust

was not only the

greatest murder in

history; it was also the

greatest theft.

Historians estimate that

the Nazis stole roughly

\$230 billion to \$320

billion in assets

(figured in today's

dollars), from the Jews

of Europe. Since the

revelations concerning

the wartime activities

of the Swiss banks first

broke in the late 1990s, an ever-widening circle of complicity and wrongdoing against Jews and other victims has emerged in the course of lawsuits waged by American lawyers. These suits involved German corporations, French and Austrian banks, European insurance companies, and double thefts of art—first by the Nazis, and then by museums and private collectors refusing to give them up. All of these injustices have come to light thanks to the American legal system. Holocaust Justice is the first book to tell the complete story of the legal campaign, conducted mainly on American soil, to address these injustices. Michael Bazyler, a legal scholar specializing in human rights and international law, takes an in-depth look at the series of

lawsuits that gave rise to a coherent campaign to right historical wrongs. Diplomacy, individual pleas for justice by Holocaust survivors and various Jewish organizations for the last fifty years, and even suits in foreign courts, had not worked. It was only with the intervention of the American courts that elderly Holocaust survivors and millions of other wartime victims throughout the world were awarded compensation, and equally important, acknowledgment of the crimes committed against them. The unique features of the American system of justice—which allowed it to handle claims that originated over fifty years ago and in another part of the world—made it the only forum in the world where Holocaust claims could be heard. Without the

lawsuits brought by American lawyers, Bazylar asserts, the claims of the elderly survivors and their heirs would continue to be ignored. For the first time in history, European and even American corporations are now being forced to pay restitution for war crimes totaling billions of dollars to Holocaust survivors and other victims. Bazylar deftly tells the unfolding stories: the Swiss banks' attempt to hide dormant bank accounts belonging to Holocaust survivors or heirs of those who perished in the war; German private companies that used slave laborers during World War II—including American subsidiaries in Germany; Italian, Swiss and German insurance companies that refused to pay on prewar policies; and the legal wrangle going on today

in American courts over art looted by the Nazis in wartime Europe. He describes both the human and legal dramas involved in the struggle for restitution, bringing the often-forgotten voices of Holocaust survivors to the forefront. He also addresses the controversial legal and moral issues over Holocaust restitution and the ethical debates over the distribution of funds. With an eye to the future, Bazylar discusses the enduring legacy of Holocaust restitution litigation, which is already being used as a model for obtaining justice for historical wrongs on both the domestic and international stage.

Teaching Tough Topics

Larry Swartz 2020-01-15
Teaching Tough Topics shows teachers how to lead students to become caring citizens as they

read and respond to quality children's literature. It focuses on topics that can be challenging or sensitive, yet are significant in order to build understanding of social justice, diversity, and equity. Racism, Homophobia, Bullying, Religious Intolerance, Poverty, and Physical and Mental Challenges are just some of the themes explored. The book is rooted in the belief that by using picture books, novels, poetry, and nonfiction, teachers can enrich learning with compassion and empathy as students make connections to texts, to others, and to the world.

The World of Anne Frank

Betty Merti 1998

Provides background information on Anne Frank and her times

The Diary of a Young

Girl Anne Frank

2010-09-15 THE

DEFINITIVE EDITION •

Discovered in the attic in which she spent the last years of her life, Anne Frank's remarkable diary has since become a world classic—a powerful reminder of the horrors of war and an eloquent testament to the human spirit. Updated for the 75th Anniversary of the Diary's first publication with a new introduction by Nobel Prize-winner Nadia Murad "The single most compelling personal account of the Holocaust ... remains astonishing and excruciating."—The New York Times Book Review In 1942, with Nazis occupying Holland, a thirteen-year-old Jewish girl and her family fled their home in Amsterdam and went into hiding. For the next two years, until their whereabouts were betrayed to the Gestapo, they and another family lived cloistered in the

"Secret Annex" of an old office building. Cut off from the outside world, they faced hunger, boredom, the constant cruelties of living in confined quarters, and the ever-present threat of discovery and death. In her diary Anne Frank recorded vivid impressions of her experiences during this period. By turns thoughtful, moving, and amusing, her account offers a fascinating commentary on human courage and frailty and a compelling self-portrait of a sensitive and spirited young woman whose promise was tragically cut short.

Suicide in Nazi Germany

Christian Goeschel
2015-10 The Third Reich met its end in the spring of 1945 in an unparalleled wave of suicides. Goeschel analyses the Third Reich's self-destructiveness and the

suicides of ordinary people and Nazis in Germany from 1918 until 1945, including the mass suicides of German Jews during the Holocaust.

Lessons and Legacies XII

Wendy Lower 2017-02-15

Lessons and Legacies XII explores new directions in research and teaching in the field of Holocaust studies. The essays in this volume present the most cutting-edge methods and topics shaping Holocaust studies today, from a variety of disciplines: forensics, environmental history, cultural studies, religious studies, labor history, film studies, history of medicine, sociology, pedagogy, and public history. This rich compendium reveals how far Holocaust studies have reached into cultural studies, perpetrator history, and comparative genocide history. Scholars,

laypersons, teachers, and the myriad organizations devoted to Holocaust memorialization and education will find these essays useful and illuminating.

Archival Guide to the Collections of the United States Holocaust Memorial Museum United States Holocaust Memorial Museum 2002 Internet version provides the full text of the printed edition, fully searchable by key word.

March to Freedom Edith Singer 2008 In *March to Freedom: A Memoir of the Holocaust*, Edith Singer gives a first-hand account of the Holocaust. When she was 16, the Nazis placed Edith and her family in the Auschwitz death camp. This memoir describes daily life in camp: meals, roll call, sleeping, selections, tattoos, sabotage,

miracles, and eventually her march to freedom. Amidst unimaginable loss of human rights, Edith maintains her faith, takes risks, and makes sacrifices for others.

Denying the Holocaust

Deborah E. Lipstadt 2012-12-18 The denial of the Holocaust has no more credibility than the assertion that the earth is flat. Yet there are those who insist that the death of six million Jews in Nazi concentration camps is nothing but a hoax perpetrated by a powerful Zionist conspiracy. Sixty years ago, such notions were the province of pseudohistorians who argued that Hitler never meant to kill the Jews, and that only a few hundred thousand died in the camps from disease; they also argued that the Allied bombings of Dresden and other cities were worse than any Nazi

offense, and that the Germans were the “true victims” of World War II. For years, those who made such claims were dismissed as harmless cranks operating on the lunatic fringe. But as time goes on, they have begun to gain a hearing in respectable arenas, and now, in the first full-scale history of Holocaust denial, Deborah Lipstadt shows how—despite tens of thousands of living witnesses and vast amounts of documentary evidence—this irrational idea not only has continued to gain adherents but has become an international movement, with organized

chapters, “independent” research centers, and official publications that promote a “revisionist” view of recent history. Lipstadt shows how Holocaust denial thrives in the current atmosphere of value-relativism, and argues that this chilling attack on the factual record not only threatens Jews but undermines the very tenets of objective scholarship that support our faith in historical knowledge. Thus the movement has an unsuspected power to dramatically alter the way that truth and meaning are transmitted from one generation to another.
